

Boomerang Bags is a community driven initiative tackling plastic pollution at the grassroots level.

Dedicated community groups, schools, businesses and volunteers get together to make re-useable 'Boomerang Bags' using recycled materials as a means to replace plastic bags. Through Boomerang Bags we start conversations, make friends, up-cycle materials and work towards shifting society's throw away mentality to a more sustainable revolution of re-use — one community, needle and thread at a time!

The project relies on the time and generosity of the local community.

You can help out by:

Donating second-hand materials
linen, fabric offcuts, curtains, thread

Volunteer to help make bags
sewing skills not essential!

Spread the word! talk to your friends,
